PROFESSIONAL EXPERIENCE

APEC Climate Center <i>International Project Manager</i>	Busan, Republic of Korea <i>April 2013 to Present</i>
--	--

- Designed and managed projects that made climate information accessible and applicable to policy makers, NGOs, and other actors from outside the scientific community
- Monitored project progress during implementation, evaluated outputs after completion, and communicated results to the appropriate users
- Developed grant proposals and actively sought out funding opportunities
- Delivered presentations and represented the APEC Climate Center at APEC Senior Officials' Meetings, international conferences, and other related events
- Wrote articles, journal publications, donor progress reports, speeches, and various communications with institutional partners
- Planned and facilitated international workshops, symposia, seminars, and capacity building events

Indonesian Agency for Meteorology, Climatology, and Geophysics <i>International Relations Assistant</i>	Jakarta, Indonesia <i>July 2011 to February 2012</i>
---	---

- Authored booklet *District-Level Climate Field Schools in Eastern Indonesia*, an analysis of a climate field school pilot program, to be submitted to the World Meteorological Organization (WMO)
- Facilitated climate outreach program to educate rural farmers and fishermen about the effects of climate change and adaptation and mitigation strategies and assess their degree of learning
- Responsible for English-language correspondence from the office of Dr. Harijono, the Director General of the Indonesian Agency for Meteorology, Climatology, and Geophysics (BMKG) and President of WMO Regional Association V
